Unpacking Procedures

- The shipment is checked against the packing slip by a different person than who placed the order.

Procedures for Paying Bills

- The Office Manager opens the mail.
- Bills are filed in a pending folder.
- The Office Manager matches the invoice with the packing slip.
- The Office Manager records each invoice in library's accounting software, assigns a Chart of Accounts code and prepares an individual "voucher" slip for each invoice.
- Director approves each invoice and those with questions are put aside for further investigation and/or backup documentation.
- The Office Manager prepares a report of all pending checks, including PO # and check number and sends it to the Treasurer.
- The Treasurer approves the checks for payment and sends the list back to the Office Manager as a PDF file to be printed and filed.
- The final version of these reports is to be included in the board packet along with the other monthly financial reports for acceptance by the board by specific action or as part of the consent agenda.
- The Office Manager uses the Library's accounting software to cut checks. The report to the board listed above shall not delay the issuance of checks.
- Once the check run is approved by the Treasurer, the checks can be signed by the President, Vice-President or Library Director.

Proposed Procedures for Ordering and Paying Bills - Services

The procedure for purchasing and paying for Services is identical with the following exceptions:

- Rather than a packing slip, a work order is compared against the actual invoice.
- PO #s aren't used for repair calls.
